

Indian 20K FP-wifi

Device Overview

This terminal is designed for efficient workforce management, featuring multiple verification methods and versatile communication options. It is particularly well-suited for environments requiring reliable attendance tracking with built-in power redundancy.

Key Technical Specifications

Category	Details
Capacity	2,000 Fingerprints, 2,000 Cards (Optional), and 200,000 Transactions
Display	2.8-inch TFT Color Screen
Communication	TCP/IP, USB-Host, and Wi-Fi (Optional)
Power	DC 12V / 1.5A with a Built-in Backup Battery
Dimensions	184 x 136 x 40.29 mm (\$L \times W \times T\$)

Core Features

- **Multiple Verification:** Supports Fingerprint, ID/IC Cards, and Workcodes.
- **Access Control:** Includes simple access control functions or connection to an external bell.
- **Advanced Logic:** Features Automatic Status Switch, T9 Input, and DST (Daylight Saving Time).
- **Connectivity:** Seamless data transfer via network (TCP/IP)

Optional Enhancements

To further customize the solution for specific site requirements, the following can be added:

- **Webserver & ADMS:** For centralized cloud-based data management.
- **RFID Support:** Integration for ID or IC card reading.
- **SSR:** Self-Service Reports for easy log extraction without complex software.
