

PRODUCT MODEL : IND MB01

PRODUCT CODE : MB01

IN PUT :12V DC

OUT PUT :12V DC

Product Name: Door Interlock Card

- **Voltage Specifications:**
 - 12V operational voltage
 - 12V input power supply
- **Key Features:**
 - Designed specifically for **door interlock systems**
 - **Built-in NO (Normally Open) and NC (Normally Closed) functions** for flexible control and safety
 - Ensures secure and coordinated access through **multiple door environments**
- **Connection Capabilities:**
 - **12V EM Lock connection:** Direct connection for 12V electromagnetic locks to control door access securely
 - **Exit switch connection:** Dedicated port to connect exit switches for easy unlocking from inside the premises
 - **Door sensor connection:** Integrated connection for a door sensor
