Product Data Sheet

Product Introduction

Fast, accurate face and fingerprint identification for secure, high-throughput access control. INDIAN BIO 70

Core Functions

Identity

Smart Biometric Access

Access

Fast, accurate face and fingerprint identification for secure, high-throughput

Integration

See the technical specifications for supported interfaces.

Deployment

Refer to the product manual for installation details.

Key Features

Face Capacity

1,200 (1:N)

Fingerprint

5,000 templates

Card Users

1,200 users

Max Users

1,200 users

Log Storage

1,50,000 records

Technical Specifications

1,200 (1:N)

Face Capacity

5,000 templates

Fingerprint

1,200 users

Card Users

1,200 users

Max Users

Product & Identification		Hardware & Operation	
Face Capacity	1,200 (1:N)	Fingerprint	5,000 templates
Card Users	1,200 users	Max Users	1,200 users
Log Storage	1,50,000 records		

Application Scenarios

Office Entrances

Commercial Facilities

Access Management

Security Installations
