

BIOMETRIC ACCESS CONTROL

Indian IS-500 / SF100

Compact fingerprint and optional card access control with built-in door-control interfaces for

BIOMETRIC ACCESS CONTROL

INDIAN INFOTECH

SECURE ACCESS

Product Introduction

Compact fingerprint and optional card access control with built-in door-control interfaces for commercial and industrial entry points.

Core Functions

Optical sensor

500 DPI fingerprint sensing.

Access control

Electric lock and door interfaces.

Connectivity

TCP/IP, RS485 and USB Host.

Card option

5,000 optional EM / IC cards.

Key Features

◆ Model: SF100

◆ Display: 2.4-inch TFT, 320 x 240

◆ Sensor: Optical, 500 DPI

◆ Algorithm: V10.0

◆ Communication: TCP/IP, RS485, USB Host

◆ Fingerprints: 1,000

Technical Specifications

SF100

Model

V10.0

Algorithm

1,000

Fingerprints

80,000

Transactions

Product Specifications

General & Physical

Model SF100

Display 2.4-inch TFT, 320 x 240

Sensor Optical, 500 DPI

Algorithm V10.0

Communication TCP/IP, RS485, USB Host

Fingerprints 1,000

Access, Control & Electrical

Cards 5,000 optional EM / IC

Transactions 80,000

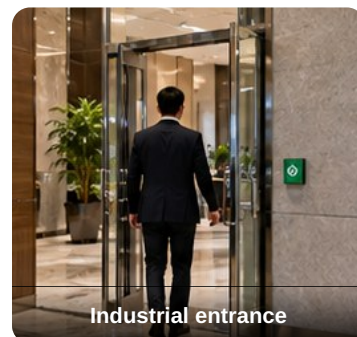

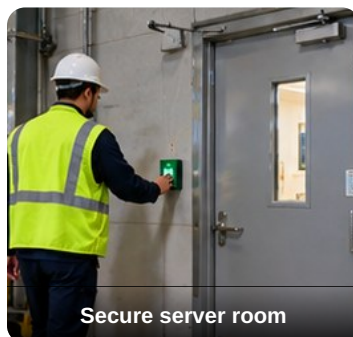

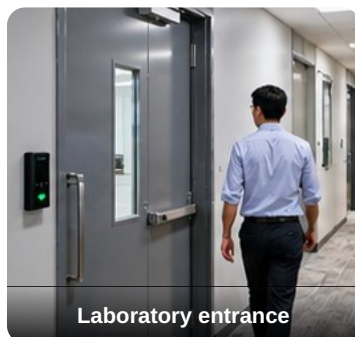

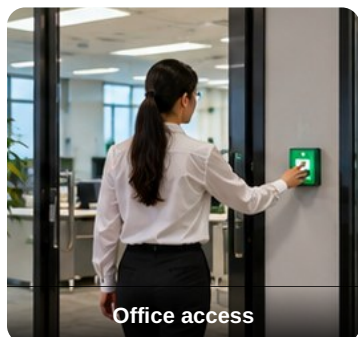

Access control Lock, sensor, alarm, exit button, doorbell

Power DC 12V / 3A

Temperature 0 C to 45 C

Dimensions 90 x 90 x 34.5 mm

Application Scenarios

Illustrative environments — not photographs of verified Indian Infotech installations.
